This map shows the general location of cemeteries in Bartholomew County. Records have been found that a cemetery (as defined by Indiana Code 23-14-33-7) exists or existed at each numbered site. Many of these sites have no remaining surface evidence of a burial ground..

There is a 100-ft. "buffer-zone" around each cemetery in which ground-disturbing construction must first be approved by the Indiana Department of Natural Resources, Division of Historic Preservation & Archaeology (I.C. 14-21-1-26.5). Please refer to Indiana Codes 14-21 and 23-14 for more laws regarding recording, construction and development restrictions.

For more information about a specific site or to report the existence of other cemeteries, please contact Cris West in the Bartholomew County Surveyor's Office.
